

Rental Information for the SUPERFUND Wanderers Baseball Field.

Thank you for renting the SUPERFUND Wanderer Baseball field at the Spenadlwiese. We are glad that you are here and hope you use the field again.

There are many different groups using our fields and in order to keep them in the best possible shape there are some steps that need to be taken each and every time you are on the field.

1. Before you start to use the field please remove the rubber plugs for first, second and third base and replacing them with the bases. The plugs for second and third base stay in the third base dugout. The plug for first base stays in the first base dugout.

NOTE: Please respect the dirt and the grass area and do not play catch or warm up on the infield or in front of the dugouts, please go into the outfield.

NOTE: If you take batting practice on the field, the pitcher may not stand on the grass area. Either farther back on the dirt or on the wooded pitchers stand (with wheels). This is so you do not make a worn out spot in the grass.

2. After you are finished please remove the bases placing them in the proper dugout and replacing them with the plugs.
3. Then use the supplied drags (1 or 2) to smooth over the dirt area. Please pay particular attention to the holes where the batter and pitchers stand and holes from sliding near 2nd and 3rd base, filling those in level with a flat rake (should be in or behind one of the dugouts). The baselines must also be raked

NOTE: After completed please pick the drags up, do not carry onto the grass, and leave them beside the fence by the third base dugout.

NOTE: When using the rakes or the drags pay attention to the grass lip and do not push or pull dirt into the grass. This keeps the lips down.

Thank you for taking the time to keep our field in the best shape possible.
